

Kedar Makode

Full Stack Developer (JavaScript)

I am a Full Stack Developer with expertise in **HTML**, **CSS**, **JavaScript**, **React.js**, **Node.js**, **Express.js**, **MongoDB** and **MySQL**. The majority of my projects revolve around **designing**, **developing**, and **deploying responsive** and scalable web applications. I am confident in my ability to contribute to any project or team due to my passion for technology and commitment to delivering quality work.

WORK EXPERIENCE

Associate Software Engineer

01/2022 - 08/2022

Accenture

Accenture is an Irish-American professional services company based in Dublin, specializing in information technology (IT) services and consulting.

- Worked as SAP consultant in sales and distribution for clients like Unilever.
- Responsible for daily reporting and clearing queue tasks for clients.

RELEVANT PROJECTS

Jobs

04/2023

The **MERN** (MongoDB, Express, React, Node.js) job application tracking web application is a powerful tool **designed to assist users in managing and tracking** their job applications. Users can use this web application to create a **centralized dashboard** where they can store all of their job applications and monitor the status of each application. In addition to its **intuitive user interface**, **robust features**, and **reliable performance**, this MERN-based web app is an excellent choice for anyone looking to **streamline their job search**.

E-Commerce

04/2023

A **React-based e-commerce** website built with **ContextAPI** and **useReducer** for **state management**. By doing so, the application is able to **efficiently manage complex state transitions** and avoid prop drilling. The project utilizes React to provide customers with an **interactive and responsive user interface** for **seamless shopping experiences**. This combination of technologies enables you to create an easily maintainable and easy-to-use ecommerce website.
